The Grace Line dedicates this carte to ye olde Spanish Main - cradle of our Western Civilization. This is the route of the "Santa" fleet which serves that enchanting domain whose Present has been welded from the sunshine & clouds of over five centuries: discovery-adventure-battle-fire & sword-peace & a lavish Nature. What a realm of Romance! The informative intent of this carte is Historical and Topographical yet it is rendered in the manner humorous that its perusal may be accomplished rather with the smile of levity than the frown of research.
